

## ROYAL OAKS HOSPITAL FEE SCHEDULE

**As of 07/1/2020**

The following is the list price charged by Royal Oaks Hospital for services provided by the hospital and/or the Professional Staff. The room & board charges will be billed by Royal Oaks Hospital while the professional services are billed by Compass Health Network, the parent entity to Royal Oaks Hospital. Both Royal Oaks Hospital and Compass Health Network maintain active provider contracts with Medicare, Medicaid, Medicaid MC+ Health Plans, TriCare and the majority of all health insurance plans. If you (or the individual receiving services at Royal Oaks Hospital) are covered by any of these, Royal Oaks Hospital will submit a claim on your behalf to have your services paid directly by one or more of these third-party payers. If you and/or the patient is not covered by one of these plans, you will be charged the below fees, or a discounted rate that is no less than what Royal Oaks Hospital would be paid by Medicare. If you are unable to pay for the charges, Royal Oaks Hospital may provide some financial assistance for you provided you are willing to complete a financial assistance application and submit required documentation to prove your income level.

### Room and Board Charges

The Room & Board charge is a per-diem amount that covers the room charge, all nursing services, food and some therapy charges not billed as part of professional services. In some instances, it may also include medications. This charge is billed for each day, beginning with the date of admission, and each new day begins at 12:01 am. The date of discharge is not billed. Room & Board charges are billed by Royal Oaks Hospital and are as follows:

Unit	Daily Per Diem
Pre-Adolescent (ages 3-12)	\$1,750.00
Adolescent (ages 13-17)	\$1,750.00
Adults (ages 18 & above)	\$1,680.00
Psych ICU (private room)	\$1,890.00

### Professional Services

Professional Services are diagnostic and/or therapeutic services provided by a Licensed Professional such as a Psychiatrist, Psychologist, Licensed Clinical Social Worker (LCSW) or Licensed Professional Counselor (LPC). Medical services may be provided by a primary care physician and/or a family nurse practitioner. The amount of professional services provided to each patient will vary and will be dependent upon the specific needs of each patient. For all patients that are admitted at Royal Oaks Hospital, at a minimum, the Psychiatrist will perform a psychiatric evaluation, the lead therapist will provide an initial assessment and the primary care physician or nurse practitioner will provide a history/physical exam. Each of these will occur within the first 24-48 hours following admission to Royal Oaks Hospital. After those initial assessments and exams, the average patient will be seen by a Psychiatrist 5-6 times per week for follow-up visits, seen on an individual basis for therapy with a licensed clinician 3-4 times per week and attend 2-3 group sessions daily with a licensed clinician. Whenever possible and appropriate, family sessions will occur 2-3 times per week. Intensity may be more or less dependent upon need. Professional fees are billed by Compass Health Network for the following services:

	<b>Service Description</b>	<b>Rate</b>
<i>Psychiatry Services</i>		
	Psychiatric Evaluation	\$303.00
	Subsequent Visit (< 15 min)	\$115.20

**Other Misc Charge**

During the course of hospitalization, other diagnostic and therapeutic services may be provided based upon client need. This would include things such as laboratory services, radiology services and in some instances, may include certain medications. All of these tests, procedures and medications are too numerous to list, however Royal Oaks Hospital can make available the cost of each upon specific request.
